Administration

SUBJECT: Administrative Organization and Operation

The basic principles of Administrative Organization and Operation are:

- a) The working relationships shall involve two types of officers: line and staff. Line organization involves a direct flow of authority upward and downward from chief school officer to building principal. A line officer has authority over subordinates. Staff officers do not stand in the direct line of authority; they serve as coordinators or consultants.
- b) The Board of Education shall formulate and legislate educational policy.
- c) Administrative regulations shall be developed by the chief school officer in cooperation with affected or interested staff members or lay persons.
- d) The central office staff shall provide overall leadership and assistance in planning and research.
- e) A reasonable limit shall be placed upon the number of persons with whom an administrator shall be expected to work effectively.
- f) Areas of responsibility for each individual shall be clearly defined.
- g) There shall be opportunity for two-way communication at all levels in the school staff.
