**SUBJECT:** Professional Growth/Staff Development

It is the policy of the District that attention be given to in-service staff development programs. The Superintendent is directed to arrange in-service education programs that will help teachers master new methods acceptable to the schools, or to help teachers to improve techniques already being used in the schools, with the object of improving their professional competencies as instructors.

The Board of Education will provide the means necessary to make staff in-service opportunities possible.

Members of the staff shall be encouraged to continue their formal education as well as to attend their respective work-related workshops, conferences and meetings, and to take an active part in organizations.
