

DISTRICT GOALS
2018-2019
Correlated to the District Strategic Plan

Strategic Area 1: Educational Program

Strategy 1: We will continually improve our educational program through the concurrent development and regular re-evaluation of a high quality standards-based curriculum, diverse extra-curricular programming, a comprehensive instructional delivery system, effective assessment methods and technological support for teaching and learning.

Goal- Use of Data to Address Disparities in Student Outcomes and Foster a Sense of Belonging for All Students in Our Diverse Student Population

1. To increase student learning in all curricular areas by ongoing analysis of multiple sources of student data resulting in modification of instruction and instructional resources. Instruction will be differentiated for students where a gap exists between their performance and the performance of the total population. Success will be evaluated based upon positive trends in student data.
2. To foster a sense of belonging by ongoing analysis of multiple data sources to develop awareness of implicit bias and cultural competence. Strategies will be developed where a gap exists between the performance of sub-populations and the total population. Success will be evaluated based upon identification of specific areas of focus and specific actions identified to address change in those areas.

Goal – Effective Use of Technology in the Teaching/Learning and Management Processes

1. To enhance staff and student flow of information through use of existing and emerging technology to communicate, collaborate, and manage information sharing. Success will be evaluated based upon evidence of effective usage of specific platforms.
2. To research and pilot new uses of technology to improve teaching and learning. Success will be evaluated based upon reports by staff.

Goal- Transition to New York State K-12 Learning Standards

1. To implement a revised K-6 Science curriculum based upon NYS Learning Standards. Success will be evaluated based upon student performance on assessments aligned with these standards.
2. To develop/ revise 7-12 science curriculum to align with the content, vocabulary, structure, and design of the New York State Science Learning Standards. Success

will be evaluated based upon development of curricular materials aligned with the new standards.

3. To develop/ revise curriculum in all areas to include problem solving experiences that are authentic and relevant.

Goal – Social Emotional Support for Students

1. To develop a plan to implement the NYS Mental Health Literacy Guidelines. Success will be evaluated based upon the completion of the plan.
2. To complete the district guidance plan by developing the K-8 portion of the plan. Success will be evaluated based upon the completion of the plan.
