DR. PETER C. SMITH
SUPERINTENDENT

July 15, 2020

Dear Jamesville-DeWitt families,

As a school district community, we still await school re-opening guidance from Governor Andrew Cuomo and the New York State Education Department. In the meantime, we are interested in your input to help the district plan for the fall.

Jamesville-DeWitt has created a [brief survey](#) to gather feedback from families regarding the fall and potential reopening of school.

In considering reopening, our top priority is the health, safety, and welfare of our students, staff, and families. The information and data gathered from this survey will help the district best prepare plans, protocols, and safety measures.

Families with multiple children are asked to complete one survey for EACH child. Your input and feedback will be considered and will help strengthen our planning. Thank you for participating.

Please complete the survey by WEDNESDAY, JULY 22.

Thank you,

Peter Smith
