

Summer Food Service

Although millions of children depend on nutritious free and reduced-price meals and snacks at school for nine months out of the year, just a fraction of them receive the free meals provided by the Summer Food Service Program (SFSP) during the summer months.

SFSP ensures that low-income children continue to receive nutritious meals during summer break, a time when they do not have access to school lunch or breakfast.

Meals are provided to all children up to age 19 without charge. Acceptance and participation requirements for the programs and all activities are the same for all regardless of race, color, national origin, sex, age or disability and there will be no discrimination in the course of the meal service.
