TRACEY MENAPACE, DIRECTOR  
TIM RISTAU, ASSISTANT DIRECTOR

Dear Families,

We recognize that life has been altered and a number of changes happened very quickly. We wanted to reach out to you and let you know that we are making our best efforts to provide special education services and supports to our students with IEPs

Our special education teachers will continue to work with grade level colleagues to provide your student with the supports to access the curriculum. Our related service providers (counseling, speech, OT, PT) have provided instructional materials to ensure continuity of education.

We are doing our best to provide special education services to our students, we recognize it looks different. We are working on identifying other means of service provision should the closure go longer. We are still waiting for further guidance from the State Education Department as to what special education will look like in the event of a longer closure.

As for CSE meetings, we are holding them via phone conference. We recognize this is not ideal but feel it is important to plan for your student's future. Please watch for your meeting invitation to inform you of dates, times, and how the meeting will be held.

If you have any questions or concerns please contact us and we will do our best to assist you. Our office phone is (315)445-8380. Feel free to email us as well.

Thank you, we hope you and your family remains healthy and safe
