Facilities project going as planned, including new roofs in all buildings

The capital project, approved by the voters in October 2010, is proceeding as planned. All of the buildings now have brand new roofs. The very large skylight that provides so much natural light in the high school library/media center has been replaced without disruption to library function. Our community has been enjoying the new bleachers at the high school stadium. That completes the first phase of our project.

You may recall that we requested approval from the state to complete some additional high cost maintenance work in some buildings when the original project came in under bid. That request was approved late in the summer, so we are now in the process of bidding out boiler and HVAC work at the Middle School and Tecumseh Elementary, new lights in the Moses DeWitt gymnasium and repair of the infrastructure around the pool at the Middle School. We expect the boiler and HVAC work to be done next summer. The rest of the work will probably take place during the school year. We are fortunate that we are able to complete this much-needed infrastructure work without additional burden to the taxpayers.

We have also planned and budgeted for a significant upgrade to our technology infrastructure. J-D was one of the first districts to use a wireless network. It is now so old, it cannot support current function. Our hard wire network is suffering from the same condition. We will be awarding an electrical contract in the near future to upgrade all the wire during this school year. The plan calls for the installation of the new wireless network next summer. Both networks should be ready for use in September 2013.

We will keep you informed of our progress and deeply appreciate your commitment to maintaining and upgrading our school facilities.

School Days
It’s the first day of class for the middle schoolers pictured below. For a Day 1 photo essay, see page 5.

• What: The J-DHS Music Department’s In Achord Showcase this year will focus on a single piece, the Broadway musical “Once On This Island.” In addition, a larger number of students will be showcased, and funds raised benefit auditorium improvements. The show features seniors Whitney Harrigan and John “Jay” Rosser. Sophomores Ryan Fanning (far left) and Chris Russo (far right) are among the many cast members.
• When: 7:30 p.m. October 19, and 2 and 7:30 p.m. October 20
• Where: J-DHS Auditorium
• Tickets: Sales for reserved seating ($10) start September 18.
Dignity For All Students Act: new law focuses on school environment

New State legislation took effect July 1, 2012, that is designed to protect all public school students with an environment free from discrimination and harassment, as well as foster civility. Guidance from the State Education Department states that the Dignity for All Students Act (DASA) focuses on prevention of harassment and discriminatory behaviors through the promotion of educational means meant to positively impact school culture and climate. Jamesville-DeWitt has a long-standing commitment to maintaining a positive school climate, developing character education programs at all levels, and establishing policies and a code of conduct that condemn harassment and discrimination in our school environment. As a result of this new law, our policies have been modified to provide even more clarity to ensure our students are educated in a setting free from harassment, intimidation, or bullying. A Dignity Act Coordinator has been appointed in each building to serve as a resource. All staff members will be provided additional training to raise awareness and sensitivity of harassment and discrimination. The training will include ways to promote a supportive, positive environment and provide techniques for positive intervention when harassment, discrimination, or bullying does occur. Our character education program for all students has also been modified to include more emphasis on civility, citizenship, and tolerance. We invite you to review the policies and code of conduct that are available on the district website. For your information, the following people have been designated as Dignity Act Coordinators: WILL DOWDELL, Assistant Principal, High School; KERRI MCKEE, Assistant Principal, Middle School; COLEEN TESCH, Principal, Jamesville Elementary; MARY SYLVESTER, Principal, Mc- COEN DEWITT ELEMENTARY; JILL ZERILLO, Principal, TECUMSEH ELEMENTARY.

Pass the peas: New federal regulations for school lunches take effect this year

There are numerous changes impacting school lunch programs across the country that are taking effect this year. Federal regulations resulting from the Healthy Hunger-Free Kids Act of 2010 are part of a strategy to create a healthier school environment, which would promote a healthy lifestyle for a lifetime. Menus will be submitted to the State Education Department for approval. The goal is to serve healthy, appetizing meals that will appeal to students. Those of you with children in your household know just how challenging this goal can be.

The mandated changes include such things as: portion sizes individualized for elementary, middle, and high school levels, serving only fat free or low fat milk, limited saturated fat, whole grain rich foods, larger servings and more variety of fruits and vegetables, including the serving of dark green, red-orange, and/or legumes each week. Students will have to take ½ cup of fruit and/or vegetable with every lunch. J-D has been making changes to our menus in recent years to promote healthier eating. There will be even more changes this year in response to the new regulations.

Cost effectiveness is also important to our families. We continue to work to provide meals that are both healthy and financially sustainable for families.

Even though school lunches across the country are increasing in cost, we are making these menu changes this year without increasing the price per meal.

We will monitor this closely and minimize future increases as best we can.

---

Board of Ed meetings set for 2012-2013 school year

Challenging learners every day now, and into their future

By Alice Kendrick, District Superintendent

We begin a new school year with both enthusiasm and anticipation over the many exciting challenges that our students and staff will experience each and every day. We strive to challenge every child to be a learner now, and every day into their future. That attribute becomes increasingly important with each passing day in the 21st century. Our students experience great success in the many aspects of their schooling, including academics, the fine arts, athletics, social development, and citizenship. We are particularly proud that we have doubled the number of students who participate in Advanced Placement courses, which offer college-level instruction and credit. 245 students participated in this program last school year. 430 examinations were written with a rate of 77% receiving college credit. We hear much about being college and career ready as a goal for all students in the United States. That statistic would indicate we have already made significant progress toward achieving that goal. The community has a right to be extremely proud of our youngest citizens.

We are committed to ongoing improvement of our comprehensive program to better meet the needs of all of our students. Our strategic plan continues to serve as our guide in this improvement process. Our goals this year include: increasing our facility with gathering and analyzing multiple sources of student data to improve our ability to focus instruction to meet specific student needs, upgrading and replacing our technology infrastructure and increasing teacher and student access to current generation technology, to further implement curriculum and instructional practices based on the new common core standards in math and English/language arts, and to implement our approved new evaluation process for teachers and principals. Jamesville-DeWitt is very proud of the fact that our new plan for this process, based on an extremely complex set of laws and regulations, was one of the first approved by the State, and was posted as one of ten model plans for others to emulate. Developing this plan was accomplished through a collaborative effort with teacher and administrative leaders. The successful implementation of this process, with fidelity, for every teacher and principal in the district will be a significant undertaking. In addition to these major initiatives, we will be implementing the other legislative changes discussed in this newsletter, including the Dignity for All Students Act and the new regulations for our food service program (see articles on page 2).

These are exciting initiatives, some with significant expense that will put increased financial pressure on the educational budget. As we implement these required changes, we will remain sensitive to both the educational needs of our students and the financial needs of our public. We will make every effort to keep you informed and solicit your ideas as we go through the process of budget development, so critical to the success of our students.

Should you have questions or comments about any of these matters, please contact my office at 445-8304. Also, please visit our website (www.jamesvilledewitt.org) to get additional information. I know you will join me in wishing our students another fantastic year at J-D.

Tax rate set for school district residents

The financing of public education continues to be complex and challenging as federal and state governments struggle with the education portion of the budget, while continuing to place more requirements on school districts. In May, J-D voters approved a spending plan for the 2012-13 school year of $35,007,068, which represented a one percent increase in expenditures in comparison to the 2011-2012 school year. The revenue plan presented in May was always an estimate because we do not usually know exactly how much state and federal aid we will receive, the exact assessment determination in each town, or how much revenue will be available from one fiscal year to apply to the next.

The revenue plan is finalized at the end of August, when more specific information is available. The assessment base in the Town of DeWitt, the majority of the school district, has increased consistently over the past several years. As part of the new tax levy legislation, the district was provided an estimated levy growth factor in January. That estimated growth factor turned out to be very accurate when compared to the actual growth factor determined in August. Consequently, the tax rate projected in May was very accurate.

The Board of Education at its August 27th meeting approved the 2012 tax rate in the amount of $21.95 per thousand dollars of assessed value, which represents a rate increase of 2.7%. In 2011 that rate was $21.38 and in 2010 it was $20.74.

We have worked hard to keep that rate change as small as possible over time. There is some variation in this rate for residents in the Town of Lafayette due to differences in equalization rates. We remain committed to sustaining our quality educational program. We will continue to monitor our expenditures very closely to ensure that all of our resources including your tax dollars are used wisely.
## Jamesville-DeWitt welcomes new teachers to the district

Most recently, Smith has served as a substitute teacher and has tackled several long-term teaching assignments. She taught third grade in the Baldwinsville School District, and before that worked for ten years in various special-education positions from Georgia to Massachusetts.

Brodsky did his student teaching at J-D High School, where he also worked last spring as a substitute teacher and student aide. An artist himself, Brodsky has a wide-ranging background, from working as a restaurant manager, muralist and gallery assistant in San Francisco, to being a visitor services assistant for the Philadelphia Museum of Art in Philadelphia, Pa.

Pompo recently completed her student teaching, in a special education life-skills program, at Solvay High School, and in English Language Arts Grade 8 at Chestnut Hill Middle School in Liverpool, New York. Pompo’s background also includes working at two PBS stations: WCNY-TV in Syracuse, and WGBH-TV in Boston, Massachusetts.

Sweeney is a familiar face around J-D, where he has worked as a substitute teacher for two years. Most recently he was a regular sub at Jamesville Elementary, from last October through June. Also, for nearly a decade, Sweeney has been a site supervisor for the Town of DeWitt Parks and Recreation Summer Day Camp.

Klemperer most recently taught grades 9-12 last year at LaFayette Junior/Senior High School, where he also did his student teaching, serving grades 10 and 12. His other student-teaching placement was at Westwood Middle School in Martin. This is a return to J-D for Klemperer, who worked as a long-term sub at the High School two school years ago.

Baker comes to J-D after a year in a fourth-grade co-teach classroom alongside a general-education teacher at Fayetteville Elementary School. Before that, she covered all subject areas as a special-education teacher (self-contained class for students with autism) at New Heights Elementary School in St. Petersburg, Florida.

Sweeney is a familiar face around J-D, where he has worked as a substitute teacher for two years. Most recently he was a regular sub at Jamesville Elementary, from last October through June. Also, for nearly a decade, Sweeney has been a site supervisor for the Town of DeWitt Parks and Recreation Summer Day Camp.

Cottet not only graduated from J-D schools, but has returned to the high school and the middle school as a frequent substitute teacher during the past two school years. In addition, he has worked extensively for the Town of DeWitt, in the YES After School Program and as a camp counselor/supervisor in the Recreation Department.

Last year, Mark taught Algebra 1 and Algebra II at Hampton High School in Hampton, Virginia. Before that, she worked as a long-term substitute at Royalton-Hartland Middle School/High School in Middleport, NY. Mark did her student teaching at Durge Senior High School in Baldwinsville and at West Genesee High School in Camillus.

Rafalak-Lawrence taught physics for eight years at Mohonasen High School in Rotterdam, NY. There, she advised the Science Olympiad team, Science Honor Society and Science Bowl. Most recently, after moving to Central New York, she taught physics at Nottingham High School in the Syracuse City School District.
School Days:
Snapshots from Day 1, Sept. 4, 2012

‘Up in the mornin’ and out to school . . .’

An unusually early start to the 2012-2013 school year had Jamesville-DeWitt students (or at least some of their teachers) singing parts of Chuck Berry’s classic “School Days” in the shower. In the photos (clockwise from top left), students step off the bus and hit the ground running at Tecumseh Elementary; handle manipulatives at Jamesville Elementary; already demonstrate testing-situation focus at Tecumseh; create a literal blur of activity surrounding their backpacks at Moses DeWitt Elementary; work on socialization at Jamesville; and listen for instructions at the Middle School. Just like that, another fun, challenging, and productive year has begun. Hail, hail, education!

‘. . . the teacher is teachin’ the Golden Rule . . . .’

‘. . . American history and practical math . . .’

‘. . . You studyin’ hard and hopin’ to pass . . .’

‘. . . Workin’ your fingers right down to the bone . . .’

‘. . . And the guy behind you won’t leave you alone . . .’

New administrator, David Nylen, aboard at High School

A new assistant principal, David Nylen, has joined the administrative team at the High School for the 2012-2013 school year.

Nylen begins his seventh year at J-D. Last year, he did his administrative internship at the high school, along with teaching classes in the mathematics department. This year, in his administrative role, he will oversee primarily freshmen and sophomores, as well as the special education department.

Last December, Nylen was granted National Board Certification as a math teacher. He earned his bachelor’s degree in Mathematics from SUNY Buffalo, his master’s in Education from SUNY Oswego, and his C.A.S. degree from Syracuse University.

David Nylen is new assistant principal at the High School.

District gives notification under the No Child Left Behind Act

State law requires all schools to provide written notification regarding the potential use of pesticides periodically throughout the year. The district does not plan to use any pesticides requiring notification. In the event of an emergency application necessary to protect against an imminent threat to human health, a good-faith effort will be made to supply written notification to those on a 48-hour prior notification list. If a pesticide application was to be scheduled and you would like to receive notification of that application, please feel free to contact Joseph Hardy, Superintendent of Buildings and Grounds, at 445-8300 for further information on these requirements.
